# Data Protection and Inflight Connectivity

Daphné Joseph  
31 October 2017

# Legislative Background

- The General Data Protection Regulation (GDPR) passed in April 2016
- Will be implemented on 25 May 2018

# ■ GDPR Impact On Aeronautical Services

- Territorial scope:
  - EU and non-EU companies
- Data collection:
- Data processing:
  - Increased measures to ensure the security of the data collected

# Consequences of Infringements

- Hefty fines and penalties
- EUR 20,000,000 or 4% of global annual revenue (whichever is greater)
- When are the fines applicable?

# Strategy

01

Regulatory environments and development are important to your business

02

Laws on data privacy are changing fast with clear impacts on aeronautical services and the provision of new technologies

03

Need for engagement with regulators and governments to foster understanding of your and your business partners' regulatory obligations
